

## Guitar and song recital

**Johanna Beisteiner**

classical guitar, soprano

Already in 2019, Johanna Beisteiner surprised audiences and critics with a bold and innovative combination of virtuoso music for solo guitar and art songs in the context of classic guitar concerts. She has developed special techniques that allow her to sing sophisticated songs while accompanying herself on the guitar. This year she continues this concept and has arranged the piano accompaniment of well-known vocal compositions for guitar. The program includes works by Schubert, Mozart and various Spanish composers.
